

# Eclipse RSR

## Laptop Recommendations

### Processor

Intel 11th, 12th and 13th generation

- ☼ Core i7 or Core i9

AMD Zen 4 Ryzen 7000 series

- ☼ Ryzen 7 or Ryzen 9
- ☼ (7840HS, 7745HX, 7940HS, 7845HX, 7945HX)

### RAM

- ☼ 32GB Recommended

Docker is required to run the speech engine on the laptop. Docker is a platform that uses containerization to automate the deployment, scaling, and management of applications in isolated, portable, and efficient environments. When Eclipse and Docker are running, the RAM usage can reach 10GB. Given that most users will also have other applications open, it is recommended to have 32GB of RAM for smooth operation.

### Storage

- ☼ 1TB SSD Recommended
- ☼ 500GB SSD Minimum

Audio files require a reliable amount of storage space.
