

Sponsorship of Non-Student for Eclipse Student Edition

The Eclipse Student Edition license is typically limited to students currently enrolled in court reporting school. A Non-Student wishing to obtain a license for the Eclipse Student Edition must have a Sponsor sign off on their application. A Sponsor can be any willing and eligible professional court reporter or captioner.

Sponsor and Non-Student Agreement:

By signing this agreement, the Sponsor and Non-Student confirm that the Non-Student:

1. Intends to use the Eclipse Student Edition license solely for educational purposes, with the goal of becoming a professional court reporter or captioner.
2. Has no intention of using the Eclipse Student Edition license for work purposes.

Both Sponsor and Non-Student understand that the Student Edition Software license for a Non-Student is valid for up to two total years. The Non-Student must have a Sponsor sign again at the first year's anniversary to re-up the license for the second year. Afterward, the licensee may continue using the license beyond two years, up to an additional two years, contingent upon the licensee annually providing either proof of formal school enrollment or proof of registration for a certification exam to take place within the next 12 months.
